ABOUT ME

I am an experienced Electrical Technician with over 13+ years of hands-on expertise in industrial and residential electrical systems. My work spans from precise cabling and motor installations to complex HT/LT line testing and DG set maintenance. I specialize in troubleshooting, safety compliance, and delivering reliable electrical solutions for diverse environments. Passionate about quality and efficiency, I take pride in ensuring every project meets high standards of performance and safety.

EDUCATIONAL QUALIFICATION

Matriculation: 2006 (BSEB Patna)
Intermediate: 2008 (BSEB Patna)
I.T.I.: ITI(Electrician) From NCVT Delhi

WORK EXPERIENCE

Electrical Maintenance Technician- B.G Tobacco Product Pvt Ltd (Greater Noida)	2016-Present
---	---------------------

- Skilled in daily Diesel Generator (DG) operation and maintenance, including checking oil, diesel fuel, and coolant levels. Experienced in starting DGs, monitoring RPM, frequency, and voltage stability. Proficient in conducting load tests to ensure reliable and efficient power supply.
- Executed electrical cabling and connections ranging from 1 sq.mm to 400 sq.mm, including thimbling, glanding, and continuity testing.
- Performed HT (High Tension) and LT (Low Tension) line equipment testing using megger and multimeter for insulation resistance, voltage, and load verification.
- Installed and tested single-phase and three-phase motors, ensuring proper wiring, protection, and operational safety.
- Conducted MCB and MCCB breaker installation, line/offline testing, and fault rectification for LT distribution systems.
- Managed machine connections, exhaust fan installations, and DG sets from 63 kVA to 1000 kVA, including mechanical and electrical checks for reliable operation.
- Handled AC and DC line connections, ensuring compliance with safety standards and performance requirements.
- Configured and troubleshot motor starters including Delta, Star-Delta, Reverse, and Forward starters, resolving complaints and ensuring smooth operation.
- Installed and serviced domestic and industrial appliances such as ceiling fans, pedestal fans, cooler fans, and air conditioners (1 ton to 8 ton capacity).
- Designed, wired, and maintained control panels and distribution panels, including MCCB breaker testing, replacement, and connection upgrades.
- Executed step-down transformer cabling, thimbling, and glanding connections, with continuity, load, and voltage checks for all associated equipment.
- Delivered home wiring and residential electrical installations, ensuring safety, efficiency, and customer satisfaction.

Electrical Technician – M/s OM Construction (Larsen & Toubro Limited) (Jalpaiguri, West Bengal)	2010-2014
--	------------------

- Executed electrical cabling and connections ranging from 1 sq.mm to 400 sq.mm, including thimbling, glanding, and continuity testing.
- Performed HT (High Tension) and LT (Low Tension) line equipment testing using megger and multimeter for insulation resistance, voltage, and load verification.
- Conducted MCB and MCCB breaker installation, line/offline testing, and fault rectification for LT distribution systems.

TECHNICAL SKILLS & INTERESTS

Electrical Cabling & Connections, Testing & Measurement, Motor Installation & Maintenance, Protection Devices Starter Configurations, Panels & Distribution, Residential & Industrial Wiring.

Strength: Hardworking, Quick learner
